<b>CONCLUSION</b>	<b>81</b>

SMART PAPER

# INTRODUCTION

BUSINESS IMPACT BRIEF

# It

is clear and universally recognizable to business leaders that the Smart Cities industry has never been in such a state of rapid evolution, being disrupted by continuous innovation while being subjected to external pressures including intense urbanization, and the need for higher levels of connectivity and data analysis efficiency.

The opinion, analysis, and research results presented are drawn from research and analysis conducted and published by APU Research, unless otherwise noted.

The facts and data set out in this publication are obtained from sources which we believe to be reliable. This publication has been written in general terms and therefore cannot be relied on to cover specific situations; application of the principles set out will depend upon the particular circumstances involved and we recommend that you obtain professional advice before acting or refraining from acting on any of the contents of this publication. APU would be pleased to advise readers on how to apply the principles set out in this publication to their specific circumstances.

*Note:* While care has been taken in gathering the data and preparing the report we do not make any representations or warranties as to its accuracy or completeness and expressly excludes to the maximum extent permitted by law all those that might otherwise be implied, and we accept no legal liability of any kind for the publication contents, nor any responsibility for the consequences of any actions resulting from the information contained therein nor conclusions drawn from it by any party. We accept no responsibility or

liability for any loss or damage of any nature occasioned to any person as a result of acting or refraining from acting as a result of, or in reliance on, any statement, fact, figure or expression of opinion or belief contained in this report. The views expressed in this publication are those of the author(s) and do not necessarily represent the views of the APU or its network partners. Publications are submitted to as research contributions to its insight areas and interactions, and APU makes the final decision on the publication. This report does not constitute advice of any kind.
